In general, it is recommended that children begin receiving oral hygiene services when two to three years old. By beginning exams at an early age, we have time to create positive experiences for your child to set the stage for a lifetime of quality dental care.

WE STRIVE TO GREATLY EXCEED EVEN OUR OWN EXPECTATIONS

At Impressions Dental Centres, we strive for excellence in dentistry and patient service. You will receive the highest quality of dental care thanks to our team's leading edge experience and state-of-the-art technology. Our dentistry focuses on providing the finest materials, technology, methods and solutions for the longest lasting, most comfortable, functional, attractive and natural appearance possible.

Our philosophy is simple: the dentistry we recommend to our loved ones is precisely what we recommend to you.

Due to the ever increasing demand for our professional services, we kindly request that if you must reschedule an appointment please extend us the courtesy of **Two (2) Business Days Notice** since these changes will affect staff and other patients.

This courtesy will make it possible to give your reserved time to another patient. While we realize that emergencies do happen and are not anticipated, all efforts to notify us are greatly appreciated.
